# MEET G7 EXO

blacklinesafety

**SAFETY, REVOLUTIONIZED**

**PRODUCTIVITY, TRANSFORMED**

**CONFIGURABILITY, MAXIMIZED**

# G7 EXO — A SAFETY REVOLUTION

blacklinesafety

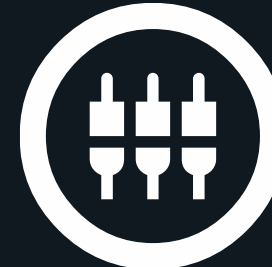

- **Trustworthy protection** | poison-immune combustible gas monitoring with broad spectrum LEL detection
- **No nonsense** | eliminating LEL correction factors minimizes unnecessary and costly evacuations
- **Command on demand** | place your command center anywhere with confidence knowing it's always connected
- **Efficient execution** | focus on your work with drop and go units that connect in minutes, wherever they're placed
- **Help is always on the line** | Blackline's 24/7 Safety Monitoring Center cares for the wellbeing of your team

# G7 EXO — A **PRODUCTIVITY** TRANSFORMATION

blacklinesafety

- **Ready and reliable** | G7 EXO outlasts every job with a 100+ day battery and options to keep it running indefinitely
- **Cost of ownership** | stop buying extra units and eliminate CSE re-permitting, saving tens of thousands of dollars
- **Automated action** | integrate hardware with facility operations, and software with your control room through APIs
- **Built for extremes** | built in Canada to face the toughest, most rugged conditions you or Mother Nature throw at it

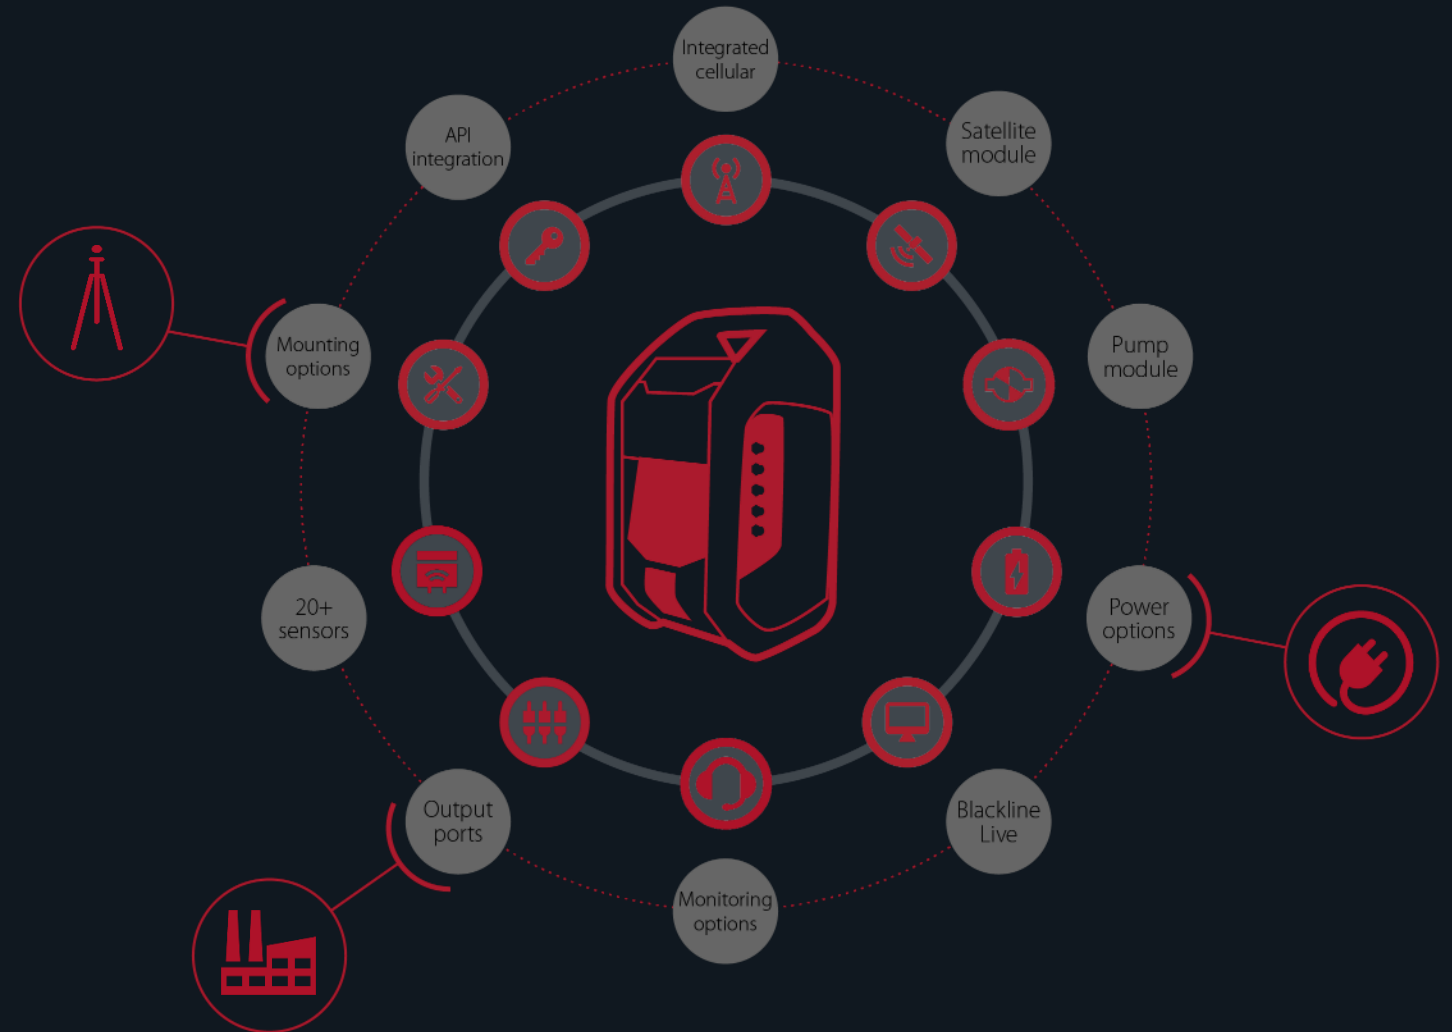

# G7 EXO — CONFIGURABILITY WITH YOU IN MIND

blacklinesafety

Customize G7 EXO to meet your needs today, tomorrow and in the future

## TAILORED TO YOUR WORKSITE

- Multiple ways to power, including solar panels and hard wiring options
- Software APIs and electrical output ports allow for integration with facility operations
- Mount it where needed with various options

## PRODUCTS

### blacklinesafety

G7 EXO

- 100+ day diffusion rechargeable battery
- 30-day pump rechargeable battery
- IS trickle charger
- Solar option

- Molecular Property Spectrometer (MPS)
- Poison immune
- H<sub>2</sub> & C<sub>2</sub>H<sub>2</sub> detection
- Accurate readings, no correction factors
- Fewer false alarms
- Pre-calibrated in cartridge

### INDUSTRIAL SCIENTIFIC

BZ1 Radius

- 7-day diffusion rechargeable
- 3.5-day pump rechargeable
- Solar charging option

- Catalytic bead
- Poisoning from silicones
- Correction factors

### DRAGER

X-zone 5500

- 2.5-day rechargeable battery
- 5-day rechargeable battery

- Catalytic bead
- Poisoning from silicones
- Correction factors

### MSA

Altair io360

- 60-day diffusion replaceable battery (O<sub>2</sub>, LEL, CO, H<sub>2</sub>S only)

- Catalytic bead
- Poisoning from silicones
- Correction factors

### HONEYWELL

BW RigRat

- 10 days with GPS and communication enabled

- Catalytic bead
- Poisoning from silicones
- Correction factors
- OR
- Infrared
- No H<sub>2</sub>

AreaRAE

- 20 hours with wireless connectivity on Li-ion battery pack
- 12 hours with wireless connectivity on alkaline battery adapter

- Infrared
- No H<sub>2</sub>
